# WHOLESALE TRADE LIST

## FALL AND SPRING, 1932-33

## BOYD NURSERY COMPANY

### McMINNVILLE, TENNESSEE

---

#### To the Trade:

It is a pleasure to present you with a list of nursery stock we are growing and now offer for sale to the wholesale trade. Having been in the nursery business all my life, hardly think it necessary to say much along that line.

In selling my interest in another nursery Company here three years ago, I have been out of touch with the wholesale trade. But, now having established a small nursery of my own, am glad to renew old acquaintances and make new one in the trade.

With the two dry years of 1930 and 1931, and the depression behind us, it is now apparent that we are starting on a long road of recovery. The conditions that brought about the big slump in business are showing improvement, and let us hope it will continue, and we believe it will.

We are located at the foot hills of Cumberland Mountain, and our soil and climate are ideal for the growing of high grade nursery stock. If you are passing this way be sure to stop and see us. I certainly do appreciate the confidence which you placed in me in years gone by, and in soliciting your future orders, will exercise the greatest care in filling and shipping same.

May we have the pleasure of doing business with you this season?

Respectfully yours,

F. C. BOYD.
